

Celebrate Earth Day by Cleaning-up!

Looking for an easy way to help the planet this Earth Day? With many large clean-up outings being cancelled, you can still help individually by picking up trash and recycling.

What you need:

Old garden gloves or work gloves

Garbage bag

What to do:

- 1.** Take a walk around your neighborhood or nearby park. Remember to maintain social distancing.
- 2.** If you find any trash or recycling, put it in your garbage bag.
- 3.** Sort your trash and recycling, based on your city code. You can usually find this information on your city's website online. You can find the Saint Paul guidelines for recycling as a PDF on comozooconservatory.org under the "Como Live" tab.
- 4.** That's it. It's that simple!

**Tune in for a special Como Live segment at 1:30pm
featuring Como Zoo's animals celebrating Earth Day!**
