

## Make Your Own Sloth Craft!

While social distance learning at home, you can make a sloth to keep you company while you write! Follow the easy directions below to create a paper sloth for your favorite writing utensil.

### What you need:

- Template (see page below)
- Scissors
- Coloring utensils (crayons, markers, etc.)
- Pencil or pen
- Glue or tape

### How-to:

1. Print out the template below.
2. Color in the template. You can use the photo of Como Zoo's Chloe the sloth for reference. Or, use your own color scheme!
3. Cut out the template along the outer dotted line.
4. Fold the sloth in half along the middle dotted line.
5. Wrap the sloth's feet around the pencil.
6. Glue or tape each foot around the pencil so the sloth hangs. See the photo example for reference.
7. If applicable, let the glue dry. You are all done!
