

# Eating the Whole Plant

All the vegetables we eat come from a part of the plant!

Match the vegetable on the left, to what part of the plant it is on the right. *A part of the plant may be used more than once!*

Tune in on Facebook at 1:30pm for an episode of Como Live that is all about the vanilla plant.

Cauliflower

Carrot

Asparagus

Peas

Kale

Potato

Root

Leaves

Stem

Seeds

Flower
