

Make a Turtle

This is a fun and easy craft for your kids to do to celebrate turtles. Great for hanging on the fridge for a splash of color!

What you need:

Turtle template (also found on the webpage)

Paper bowl

Masking or scotch tape

Crayons, markers or colored pencils

Scissors (optional)

What to do:

1. Print the template found on the website. This will be your turtle.
2. Have your child color in the feet, tail, and head of the turtle. They can color in the center if they want, but it will not be visible once you add the shell.
3. Optional step—you can choose to cut out the outline of the turtle body for some scissor practice.
4. Flip over the bowl and line it up with the edge of the turtle body.
5. Take small rolls of the tape and tape a few pieces to the outer edge of the bowl. Tape the bowl onto the template.
6. Have your child color the bowl, which is the turtle's shell.
7. You're all done! Find a good spot to display the completed turtle!

Tune in today to Como Live on Facebook at 1:30pm to see our Galapagos Tortoises!
