

## Design a Tree

This activity allows your kids to get creative and paint their own tree.  
Make it your favorite fruit tree, or whatever tree you would like!

### What you need:

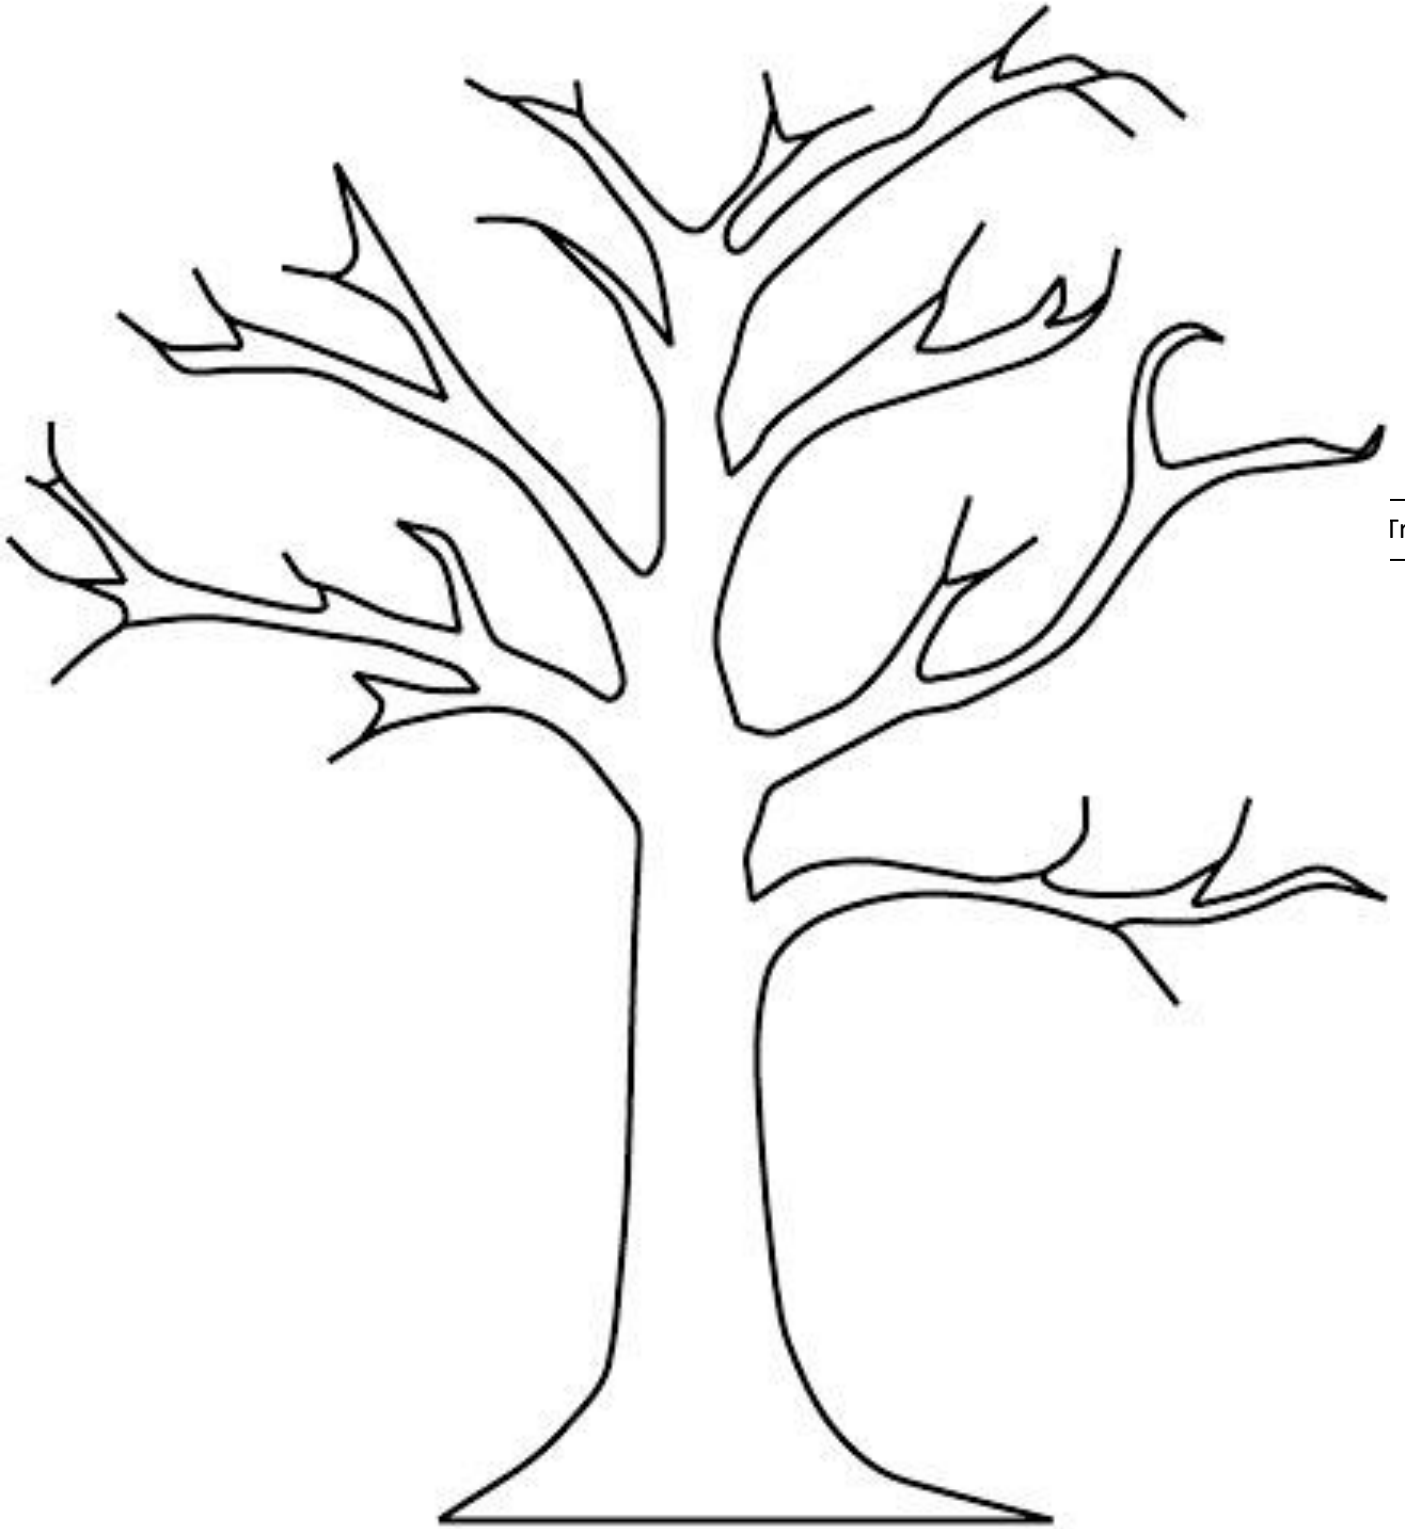

- Tree template (attached below)
- Coloring utensils (paints, markers, etc.)
- Paint brushes and/or sponges

### What to do:

1. Print out the tree template on the next page.
2. Using paints or markers, you can be creative and design your tree! First, add the leaves. Then, if your tree is a fruit tree, you can add your favorite fruit.
3. *What kind of tree will you design? You can follow the examples of the trees in the North Garden at the Marjorie McNeely Conservatory:*

Tune in today to Como Live on Facebook at 1:30pm for a show  
and tell of the North Garden.
