

## Make a Paper Spider Craft

This simple craft gives you the instructions to make some decorative arachnids for around your home!

### What you need:

Black construction paper

Pencil

Scissors

Drinking glass or mug

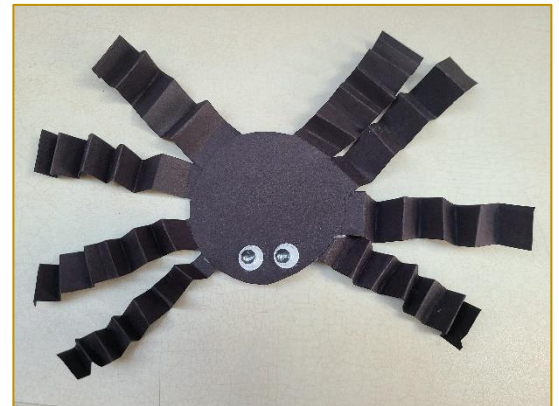

Glue or Tape

Two Googly eyes

### What to do:

1. Use a mug or glass to trace a circle on black construction paper.
2. Cut out the circle
3. Cut out the legs of your spider. You can make each leg about ½ inch by 6 inches long.
4. Once you have your eight legs, accordion fold each leg to give it shape.
5. Glue or tape your legs to the spider. Make sure there are four legs on one side and four on the other!
6. Glue two googly eyes on your spider's body.
7. You are all done!
