

# Paper Chain Snake

Help your kids make their own paper chain snake by following the easy instructions below!

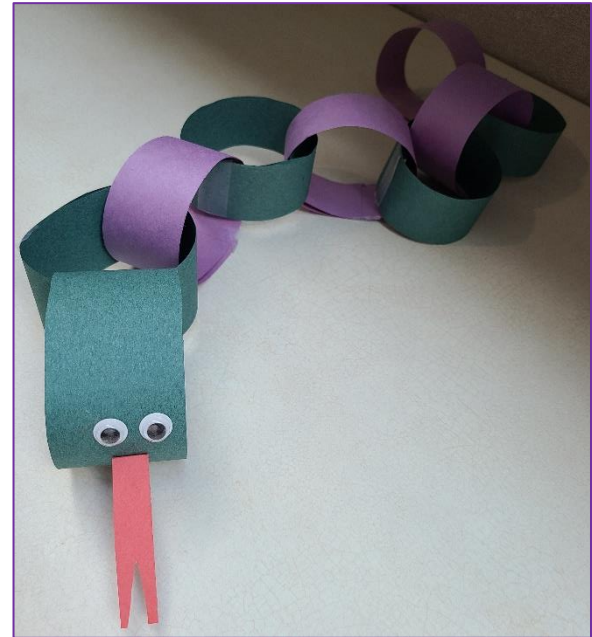

## What you need:

- Two types of colored paper or construction paper
- Small piece of red construction paper
- Ruler
- Scissors
- Tape or glue stick
- Googly eyes (optional)

## What to do:

1. Cut 5 strips of one color and four strips of the other color. Make sure your strips are about 10 inches long and about 2 inches wide. Measure using a ruler.
2. Start by making your snake's head and make one paper ring. Tape or glue the ring together.
3. Start your paper snake body pattern. Begin by using the same color as the head, and then alternate colors.
4. Tape or glue the strips around each other one by one and form the into a ring.
5. Repeat the process and make your paper chain snake until you have used all your construction paper strips.
6. Once you have made your snake body, glue on two googly eyes on the head segment. Alternative you can draw eyes.
7. Finally, using a small strip of red paper, make a tongue for your snake. You can cut a long, skinny strip into a fork on the end. Glue or tape this on under the eyes.
