

# Make a Twiggy Reindeer Ornament

Follow these easy instructions to make a reindeer ornament with materials found in nature!

## What you need:

- Twigs (3 per ornament)
- Googly eyes (or acorns, pebbles)
- Red Button (or acorns, pebbles, leaf cutout)
- Scissors
- Craft or Hot Glue
- Twine or Ribbon

## What to do:

1. Head outside and find 3 twigs! It's best if 2 twigs have extra branches to form the antlers
2. Glue the three twigs together in the shape of a triangle
3. Add your googly eyes and red button nose with glue. Don't have googly eyes or a red button? Turn to nature- try acorn caps or pebbles. Cut out a nose or eyes from a leaf
4. Finally, add your twine or ribbon in a loop at the top
5. You can now hang your Reindeer ornament for everyone to enjoy!
