Create enrichment for your pet at home!

Dog Ideas!

Making enrichment for your pet at home can be fun and easy. Here are some things to keep in mind when making enrichment.

- Can it hurt the animal? Can they cut themselves on sharp edges or get their limbs wrapped up or stuck?

- Is the enrichment harmful if eaten? If you use materials like paint or glue are they non-toxic? If the enrichment is eaten could it lead to a veterinary visit?

- Is the enrichment the appropriate size and weight for the animal?

- What does the animal respond to? Are they food motivated? Scent motivated? Tactile? Don’t’ know? Do some experimenting!

Edible Apple Kong!

Recycled Materials work as great pet enrichment!

**Cat Ideas!**

Making enrichment for your pet at home can be fun and easy. Here are some things to keep in mind when making enrichment.

- **Can it hurt the animal?** Can they cut themselves on sharp edges or get their limbs wrapped up or stuck?

- **Is the enrichment harmful if eaten?** If you use materials like paint or glue are they non-toxic? If the enrichment is eaten could it lead to a veterinary visit?

- **Is the enrichment the appropriate size and weight for the animal?**

- **What does the animal respond to?** Are they food motivated? Scent motivated? Tactile? Don’t’ know? Do some experimenting!

### How to make your own Egg Wobbler

**What you’ll need:**
- Cat food
- Half an egg

**Step 1:** Fill half of one egg with wet cat food.

**Step 2:** Put the egg back together and stick in the freezer.

**Step 3:** Let your cat figure out how to open the frozen treat!
One Way Mirror Bird Feeder!

**How It Works**

1. **Cat Swipes Ball**
2. **Food Drops**
3. **Noms Are Had**

**Materials Needed:**
- Bottle (1 pint)
- Pen
- Rubber band
- Food
- Screws

**Instructions:**

**Step 1:**
Take the tube and place treats or canned food into the middle.

**Step 2:**
Put a small ball of newspaper into each opening of the tube.

**Step 3:**
Let your cat figure out how to get to the treats!
