

Print, trim, fold and keep in your wallet.

Consider wildlife-friendly candy this Halloween

Orangutans and many other animals are in danger due to unsustainable palm oil plantations, which destroy their forest homes. Palm oil can be found in many products—even candy!

We are dedicated to caring for animals, so we encourage you to consider purchasing candy that contains sustainable palm oil. Listed to the right are companies that are members of the Roundtable on Sustainable Palm Oil, which is dedicated to making a difference for wildlife.

Learn more about palm oil

Download the Palm Oil Shopping app by Cheyenne Mountain Zoo to search for products and see if they contain sustainable palm oil. You can also visit the Saint Louis Zoo Website to learn more about palm oil and how it affects animals.
